

# Drum Chipper

Skookum Code: 2184

## BRUKS 820 CM

*BRUKS stationary drum chippers are processing different kinds of input materials, like logs, slabs, sawmill wastes, butt ends, veneer wastes and other industrial wood wastes in all wood industry segments.*

*Horizontally fed drum chipper for producing high quality pulp and special purpose chips.*

### Technical Data:

30-60 m<sup>3</sup> chips/hr

Chipper drum dia., 800 mm

2 Standard knives

Infeed opening – 540mmx365mm (WxH)

Max solid wood thickness – 250mm

Chipper drum speed, 720 rpm

Fly-wheel mass GD<sup>2</sup>, 400 kpm<sup>2</sup>

No. of feed rollers – 2/4 (upper/lower)

Feedwork power rating – 2.2/4 kW

Main power rating – 110 kW

Weight – 4200kg

Reconditioned 820CM
